

# Body Scan Script

---

Welcome to the body scan relaxation exercise.

Over the next several minutes, you will focus on the physical sensations throughout your body. These sensations might be the feeling of clothes on your skin, tension within your muscles, the temperature of the air, or anything else you can feel. Sometimes, you might not notice any sensation at all.

Your job is to simply observe these sensations. You do not need change how your body feels or do anything else.
